**THE FAMOUS FOURTEEN**

Celebrities indeed are the aquatic loving friends on the cover\* of the 1971 annual report for the town of Jefferson! We take great pride in presenting eight of the fourteen Jefferson grown honkers who graced the shores of lovely Damariscotta Lake from early spring into the late fall. The Majestic Canada Goose, Gander and offspring were a great nature study for residents and non-residents alike. These delightful seasonal visitors, who established a permanent residency in our hearts, became the topic of discussion far and wide. Letters to the editor of a local paper, an editorial by the editor himself, coverage by the Maine Department of Inland Fisheries and Game, and countless photos by the amateur camera buff were just a few of the ways we were able to share and enjoy our friends with others. We all have a story to tell!

A brief history on our geese might be of interest. Originally, these geese were planted throughout the state of Maine through a project of the Maine Department of Inland Fisheries and Game with the goal of establishing a permanent breeding area for the geese here in the state. Some of these geese were known as "golf course geese" as they were brought to Maine from an overcrowded golf course of geese in New Jersey. None of the original geese were "planted" on Damariscotta Lake, but it is believed that they came from other ponds or lakes near by. (How could they resist our clear, clean water?) Two years ago we had one pair of Geese and two gosslings. This year we were fortunate enough to have the company of two families. Long before the ice left the lake, folks were reporting goose sightings in the open fields and in their own back yards. A careful vigil by many of us enabled us to observe nesting areas, arrival of gosslings, maturity of the young geese and their departures. Although both families had separate nesting areas, eventually they joined forces and swam together up and down the shoreline throughout the summer months.

So much enjoyment came from the "Famous Fourteen" of the summer of '71. The fishing may have left something to be desired, but the residency of the geese filled that gap and kept us happy.

A Canada Goose mates for life and it is believed that it returns to the area in which it learned to fly. The goose and gander do not produce young until the second or third year of life. The Goose hunting season left its toll here as well as in other parts of the state, but we sincerely hope we will hear the familiar honks of our friends in the near future. We eagerly await the arrival of the only non-tax payers on the lake!

**CECIL HALLOWELL**

Cecil, a man of six foot two  
From the very beginning knew what to do.

He loved the farm in his own home town  
And grew many crops with great renown.

At the end of day, after chores were done  
Would take his family and to Grange would run.

To make an honest living and add to his "Money Chest"  
Drove the Old School Bus more miles than you can guess.

Teaching school was tried for a while  
But this modern method put his out of style.

To improve the town he threw his hat in the ring  
And ran for Selectman, so sure he could win.

For many years he served his best  
Working long hours for the "Community Chest."

Now he is retired and left a mark that's grand,  
With his good wife Esther has gone to Florida land.

Enjoying the fruits of a well spent life  
Taking it easy away from toil and strife.

We hope his retirement with many years of fun  
Will keep him in trim for the rest of life's pathway to run.

This world needs a lot of men like him  
Who has kept the faith and courage to win.

He has put his "Maker" first place in his life  
And winning the battle along with his wife,

Has set an example for others to follow if they will,  
Let's wish him good luck as he journeys up life's hill.

**REPORT OF THE  
SUPERINTENDENT OF SCHOOLS**

To the Citizens of Jefferson:

Submitted herewith is my third annual report as Superintendent of Schools.

The budget for municipal 1972 is \$172,132.00 and expenditures for municipal 1971 were \$162,498.92. Thus the budget increase over 1971 expenditures is \$9,633.08 (tuition \$5,898.85; elementary operation \$3,734.23). The Town appropriation to meet this budget is estimated at \$126,850.00 or an increase of \$5,000 over the 1971 appropriation of \$121,850. An increase of \$2,590.83 in State General Purpose Aid and an increase in carry-over to 1972 of \$1,681.26 helps in keeping the appropriation within a reasonable limit.

The elementary enrollment as of October 1, 1971 shows a decrease of 2 students over October 1, 1970 and the high school enrollment shows a gain of 4 students over October 1, 1970.

The Town will receive a total of \$7,283.00 in Federal Funds under P. L. 89-10 Title I for the school year 1971-72. These funds are being used to provide supplies, equipment and two teacher assistants to work with individuals or small groups of youngsters who are having problems with learning.

During the past year textbooks have been up-dated in the areas of Science, Mathematics, English and the upper grades in Social Science. The concentration during the next year will be in the up-grading of our Reading Program. The over-all school program is continually being evaluated and changes and additions are being made as the need becomes apparent. I feel that the school has an excellent, well qualified staff and the educational program is meeting the basic needs of the students.

As of January 1, 1972, Jefferson became eligible for 27% school construction aid. Before this time no aid was available to small communities that were not members of a School Administrative District. The Superintending School Committee has requested the placement of two articles in the Town Warrant concerning an addition to the Jefferson School. The proposed addition would consist of one room to house a library-resource center. There is a definite need for this type of facility. I urge each of you to consider its merits.

In the next few years the financing of education may well go through a drastic change. It behooves each one of us to keep in touch with our State and Federal legislators. It is apparent that more financial help in supporting education must come from outside the community, but in so doing, I feel that we must still maintain strong local control.

I wish to thank all the citizens of Jefferson for the cooperation extended me during the past municipal year.

The usual financial and statistical data follows this part of the report.

Respectfully submitted,

BENJAMIN Q. BELONGA, JR.

Superintendent of Schools

**SELECTMEN'S REPORT**

To the Citizens of the Town of Jefferson:

Following is a report of the activities of your municipal government for the year ended December 31, 1971.

The Town books closed with a balance of \$22,173.67 of which \$1,977.25 is a balance in the school account.

The T.R.I.F. funds were used on the Linseott Road.

We recommend to tar this section and to mulch the section of McCurda Road and Ridgeway Camp Road which were tarred with a prime coat of tar in 1971.

We received in 1971 most of the moneys spent on disaster road work. The difference being we had to pay out more than approved on power grader and operator.

The past year Surplus food money came from trust funds. If the Town would like to continue this program we would need to raise \$700.00.

Your Selectmen thought it best to pay the balance on the new school bus. Now we are asking that this overdraft be approved.

The Bridges and Culverts account had a large overdraft due to replacing planks on Bosworth Road bridge and Sleepy Hollow bridge. We have a few culverts on hand which we didn't have a year ago.

The Winter Maintenance account came out more in line since we raised \$3,000. more, which is about the amount this account has been running over.

The past few years we have been sanding all roads during and after plowing. We feel this program must be maintained if we are to service the public as people are working different shifts and must get to and from work.

We are asking the Town to consider property mapping of the town.

The most important item the Town gets for this is a complete and true inventory of every parcel in the community. These are expressed in the form of property maps showing all parcels and their dimensions. In addition, mylar tracings (from which new prints of the maps can be reproduced) are provided. Further, an over-all index map which shows individual map outlines and photograph numbers. Next, a complete set of enlarged aerial photographs with property lines and dimensions shown on them is produced. And finally, separate property record cards are prepared for every parcel, on these will be typed the owner's name, address, map and lot number, location of parcel, dimensions of property, Registry of Deeds book and page number when available, and rural acreage land classification by types and areas are entered and totaled on the cards.

Mapping needs only to be done once if maps are kept up-to-date. This is done by keeping a careful check on the transfers and plan books at the Registry of Deeds.

Following is the specifications for aerial photographs and property maps:

**I. Aerial Photographs:**

- a.) Base maps will be prepared from aerial photographs taken with a precision camera with a focal length of 6", checked by the U. S. Bureau of Standards for use in making glass plates to be utilized on Kelsh Plotters for drafting the accurate base maps of the Town.
- b.) A complete set of contact prints giving complete stereoscopic coverage of the entire town at a scale of 1" equals 800'. A 6" precision camera shall be used and 60% end lap between photos and 30% side

lap between flight strips is required. The photographs shall be taken when there are no leaves on the deciduous trees and no snow on the ground. Good resolution and freedom from excessive shadows will be required with the sun at a minimum of three hours above the horizon. Tilt will be kept to a minimum.

- c.) Clear alternate enlargements of b.) above giving complete coverage of the urban and congested areas namely Jefferson Village and all the congested cottage lot developments on Damariscotta and Clary Lakes and Dyer Long Pond at a scale of 1" equals 200' and the remaining or rural areas at 1" equals 400' are to be supplied on double weight semi-matte paper.
- d.) Photographs showing areas near rivers and streams shall be taken only when the waters are within the banks of said rivers and streams.
- e.) All property lines shall be inked on the photographs used by our crews in the field and office for final map compilation and these photographs shall become the property of the Town.
- f.) Due to radial distortion and vertical change in topography, various scale discrepancies occur in the aerial photographs. To assure a common scale throughout, measurements will be made prior to the enlargement of the negatives in order that these inherent variations will be eliminated.

## II. Maps:

- a.) The maps shall be inked on high grade tracing material and shall be at a scale of 1" equals 200' for the built-up areas of the Town as specified in I.c) above and 1" equals 400' for the balance of the Town.

- b.) The maps shall show the following:
- 1.) All property lines, street or road lines and plane topography.
  - 2.) All street and road names shall be shown, as well as major streams, rivers and bogs.
  - 3.) All maps at the 1" equals 200' scale shall show lot dimensions.
  - 4.) All maps shall show adjoining map numbers, size of sheet, legends and margin information are to be as directed by the Board of Assessors.
  - 5.) All lot numbers shall be in sequence and shown in a manner satisfactory to the Board of Assessors.
  - 6.) An index map shall be made showing location of photographs and map outlines.
  - 7.) The Company shall deliver to the Town of Jefferson two complete sets of prints of the property maps, one set of which will be bound in Plan Book form for a permanent office record.
  - 8.) An overall map, at a scale of 1" equals 1500', showing all roads, streets, and plane topography shall be furnished on reproducible material and six prints of same for use in connection with all civic functions, the size of which will be about 36" x 40".

### III. Land Classification:

- a.) All parcels of land whose areas exceed five acres shall be broken down into the following classifications:
- 1.) Woodland: Softwood:  
Young, second growth, old growth  
Mixedwood:

Young, second growth, old growth  
Hardwood:

Young, second growth, old growth

- 2.) Cleared Land: Homesite, campsite, industrial, commercial, tillage, pasture, orchards, gravel pits, etc.
- 3.) Waste Land: Bog, brush and water
- 4.) The acreage in each classification is to be entered and totaled for each lot on the index cards.

#### IV. Index Cards:

- a.) White index cards (5" x 8") the design of which shall be supervised by the Board of Assessors shall be furnished by the Company and the following information shall be entered on these cards.
  - 1.) Owner's name and address
  - 2.) Map and lot number
  - 3.) Location of parcel
  - 4.) Frontage and depth for urban and congested lots and frontage and total acreage for rural lots
  - 5.) Registry of Deeds—book and page number if available
  - 6.) The land classification by types and areas to be entered and totalled (as specified in Part III).

#### V. Delivery Date:

- a.) All photography, field and office work shall be completed and all maps and index cards delivered to the Town on or before May 15, 1973.
- b.) All transfers, which occur during the 1972 Tax Year, will be processed so that the maps will be completely up to date as of April 1, 1973.

- c.) Preliminary maps will be furnished in advance during the course of the project for use by the Board of Assessors in connection with their work with a guarantee of all preliminary maps on or before March 1, 1973.

**VI. Insurance:**

- a.) The Company shall provide all insurance for its employees as required under the General Laws of the State of Maine and shall further provide adequate liability insurance.
- b.) The Company shall agree to hold the Town harmless from any and all liability of every nature and description.

**VII. Office Space and Records:**

- a.) The Town will make readily available to the Company, any maps, records and other data in its possession relating to the aforementioned survey.
- b.) A room to be used as office and drafting room will be made available to the Company during the course of the project.

**VIII. Basis of Payment:**

Payment to the Company for work done under this contract shall be made over a two-year period as follows:

- 1972: The amount of Thirteen Thousand Dollars (\$13,000) to be billed on a monthly basis as the work progresses.
- 1973: Due and payable on or before May 15, 1973, on delivery of all maps and the property record cards the amount of Six Thousand Dollars (\$6,000).
- 1973: Due and payable on or before July 31, 1973 on completion of the hearings and final acceptance of all materials as specified in the Contract the balance of Two Thousand Dollars (\$2,000).

**IX. Public Inspection and Review:**

All property owners shall be notified by the Board of Assessors through the Press when the completed maps have been delivered to the Assessors' Office and shall have a period of 20 days to inspect the maps during scheduled hours. Immediately following this 20 day period, the Company will make available the services of its job supervisor for a period of at least 2 days to consider complaints of property owners in delineation and land classification. The Company shall make all necessary investigations occasioned by such review within two weeks after the closing of the review.

**X. Correction of Errors:**

The Company shall correct in ink all errors of delineation and land classification brought to their attention by property owners or the Assessors and furnish new prints without additional charge.

All dogs six months old on or before January 1, must be licensed by April 1st. In order to be licensed the owner must present a rabies certificate dated within the past two years. Those that are unlicensed in violation of Title 7, C. 703, Section 3451 of Revised Statutes of Maine 1964 as amended will be turned over to the Sheriff's department for collection on April 1, 1972.

We believe that there were no outstanding bills.

Respectfully yours,

LINCOLN O. ORFF

REINALD H. BENNER

Selectmen of Jefferson

**AUDITOR'S REPORT**

January 17, 1972

Board of Selectmen  
Jefferson, Maine

Gentlemen:

In accordance with the provisions of Title 30, Section 5253, Revised Statutes of 1964, and at your request, the financial records of the Town of Jefferson have been audited for the municipal year ended December 31, 1971.

As required by statute, one copy of this report together with the audit procedural form prescribed by the state auditor for governmental audits in accordance with statutory requirement have been forwarded to the State Department of Audit.

The examination was in the form of a limited general audit and performed in accordance with standards established by the State Department of Audit and by the National Committee on Governmental Accounting. Audit analysis was on a basis consistent with the preceding year and included all procedures considered necessary.

Insofar as could be ascertained within the scope of the examination, the financial affairs of the Town appear to have been appropriately handled, with such exceptions as may be noted in the accompanying comments.

Exhibits and schedules together with the accompanying comments present the result of the financial operations of the Town for the period designated.

All of which is respectfully submitted.

C. R. WOODMAN
